

Date: _____

APPLICATION

For a Free Smoke Alarm, Carbon Monoxide Alarm or Battery

Home owners in Auburn, Algona or Pacific who are in need of a smoke alarm, carbon monoxide alarm or battery may qualify for a free alarm or battery at the discretion of the Valley Regional Fire Authority, depending upon need and availability of grant funding.

Please complete the questions below and return this application by mail or in person. You will be notified as to whether you are eligible for a free alarm or battery, and at that time may pick up your alarm. If you are unable to install your alarm, please request assistance and we will accommodate you as quickly as possible.

Valley Regional Fire Authority
Smoke Alarm, Carbon Monoxide Alarm and Battery Program

Release Form

I/We are aware that the purpose of this program is to increase the number of private residences in which working smoke and carbon monoxide alarms are present at no cost to the residence.

I/We recognize that a properly working smoke alarm can provide a warning about the presence of smoke, but it cannot help to prevent fires nor fully protect the people or property at my/our residence should a fire occur.

I/We recognize that a properly working carbon monoxide alarm can provide a warning about the presence of carbon monoxide, but it cannot help to prevent a carbon monoxide release nor fully protect the people or property at my/our residence should a release of carbon monoxide occur.

I/We agree to assume full responsibility for the use and maintenance of any smoke alarm, carbon monoxide alarm or battery in my/our residence given to me/us as part of this program.

In consideration of my/our participation in this program, I/we agree to hold the Valley Regional Fire Authority and its officers, agents and employees harmless from all claims, damages or injuries of any kind, to persons or property arising in connection to this program or resulting from the failure of the smoke alarm, carbon monoxide alarm or the battery to perform as indicated by the manufacturer.
